

Smart Solutions for Smarter Manufacturing.

Company Profile

OpsPilot is an AI-powered B2B SaaS platform helping mid-sized manufacturers automate operations, optimize supply chains, and gain real-time insights—driving efficiency, reducing costs, and accelerating decision-making through intelligent automation.

Key Values

-  Efficiency
-  Reliability

-  Innovation
-  Simplicity

Vision:

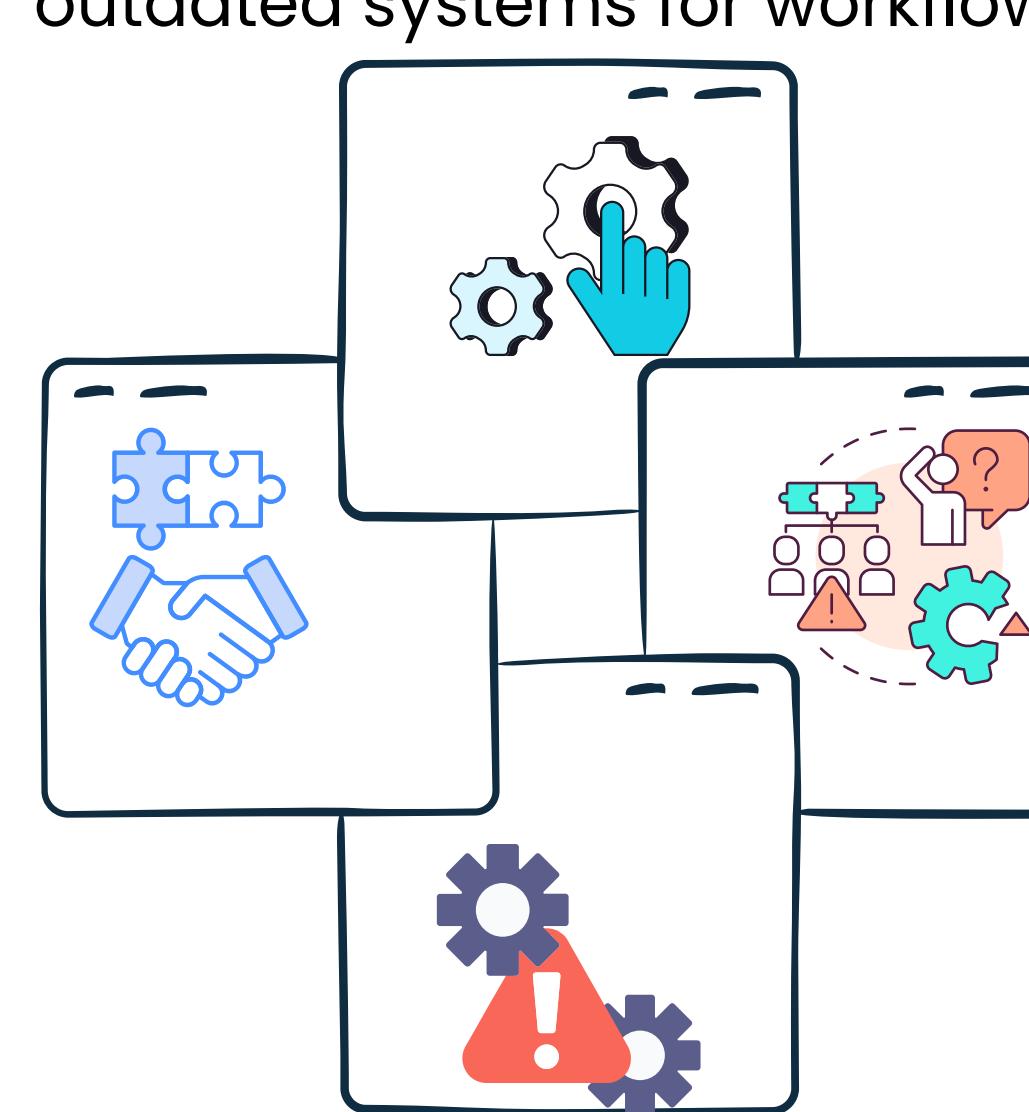

Revolutionize manufacturing with intelligent operational automation.

Mission:

Empower factories through AI-driven efficiency tools.

Problems

Integration Chaos
Existing tools don't talk to each other, causing data silos.

Inefficient Decision-Making
Delayed insights lead to costly operational errors and missed opportunities.

Manual Operations
Factories still rely on spreadsheets and outdated systems for workflows.

Lack of Visibility
No real-time tracking of inventory, supply chain, or production status.

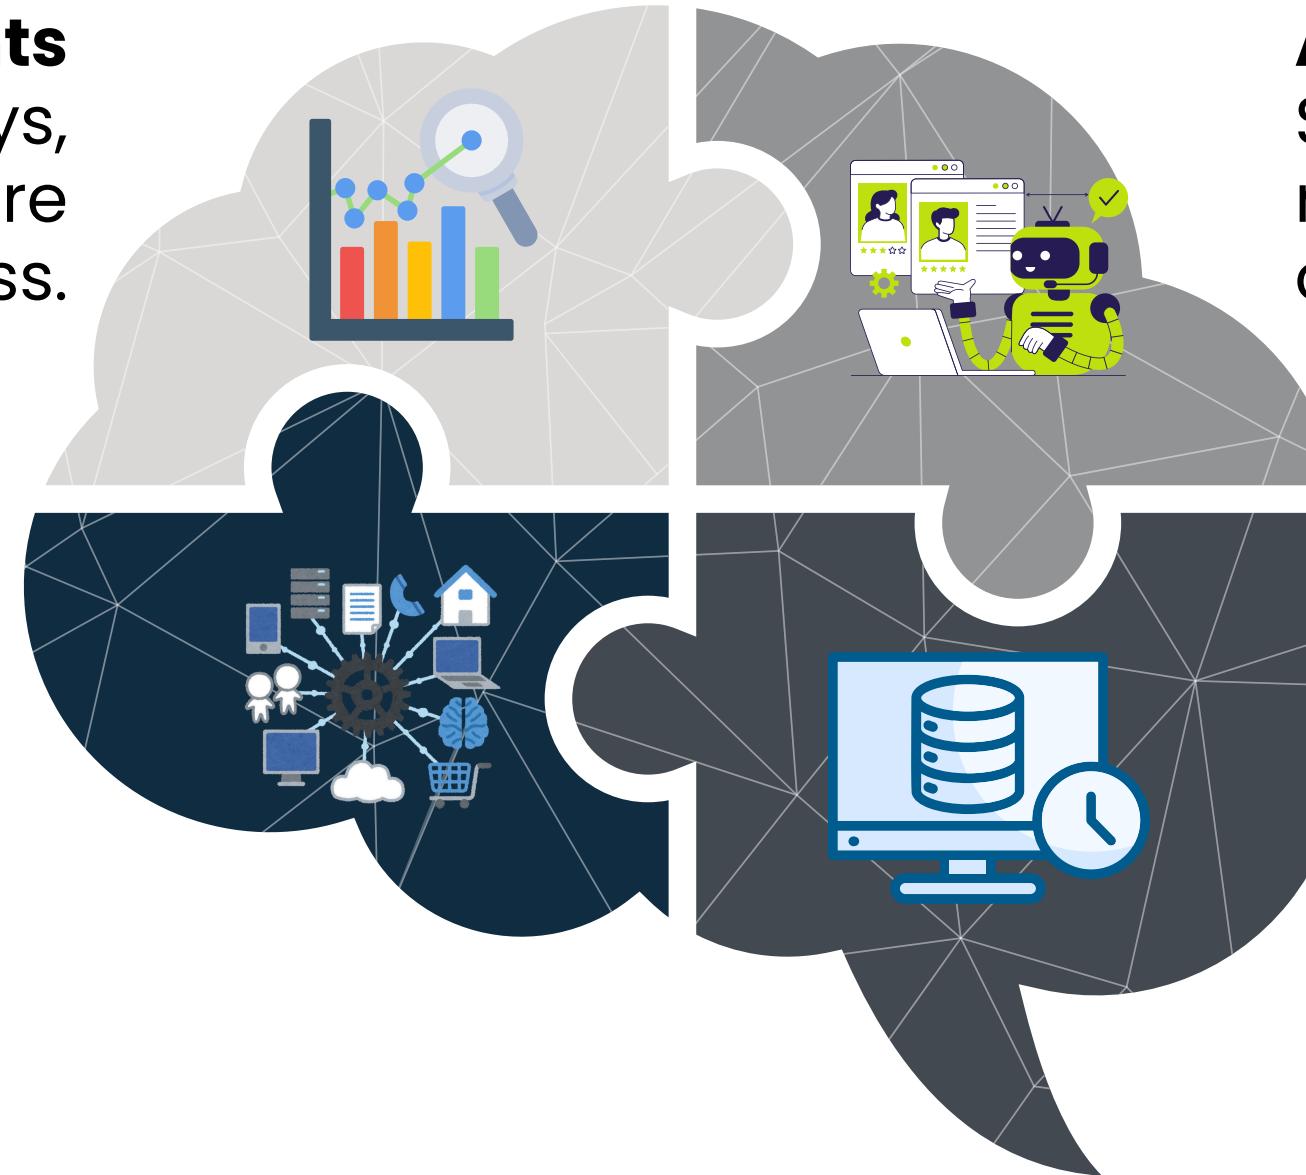

Solutions

Predictive Insights

Forecasts delays, shortages, and risks before they impact the business.

Seamless Integration

Connects with existing ERPs, CRMs, and IoT devices effortlessly.

AI-Powered Automation

Streamlines workflows and reduces manual effort across operations.

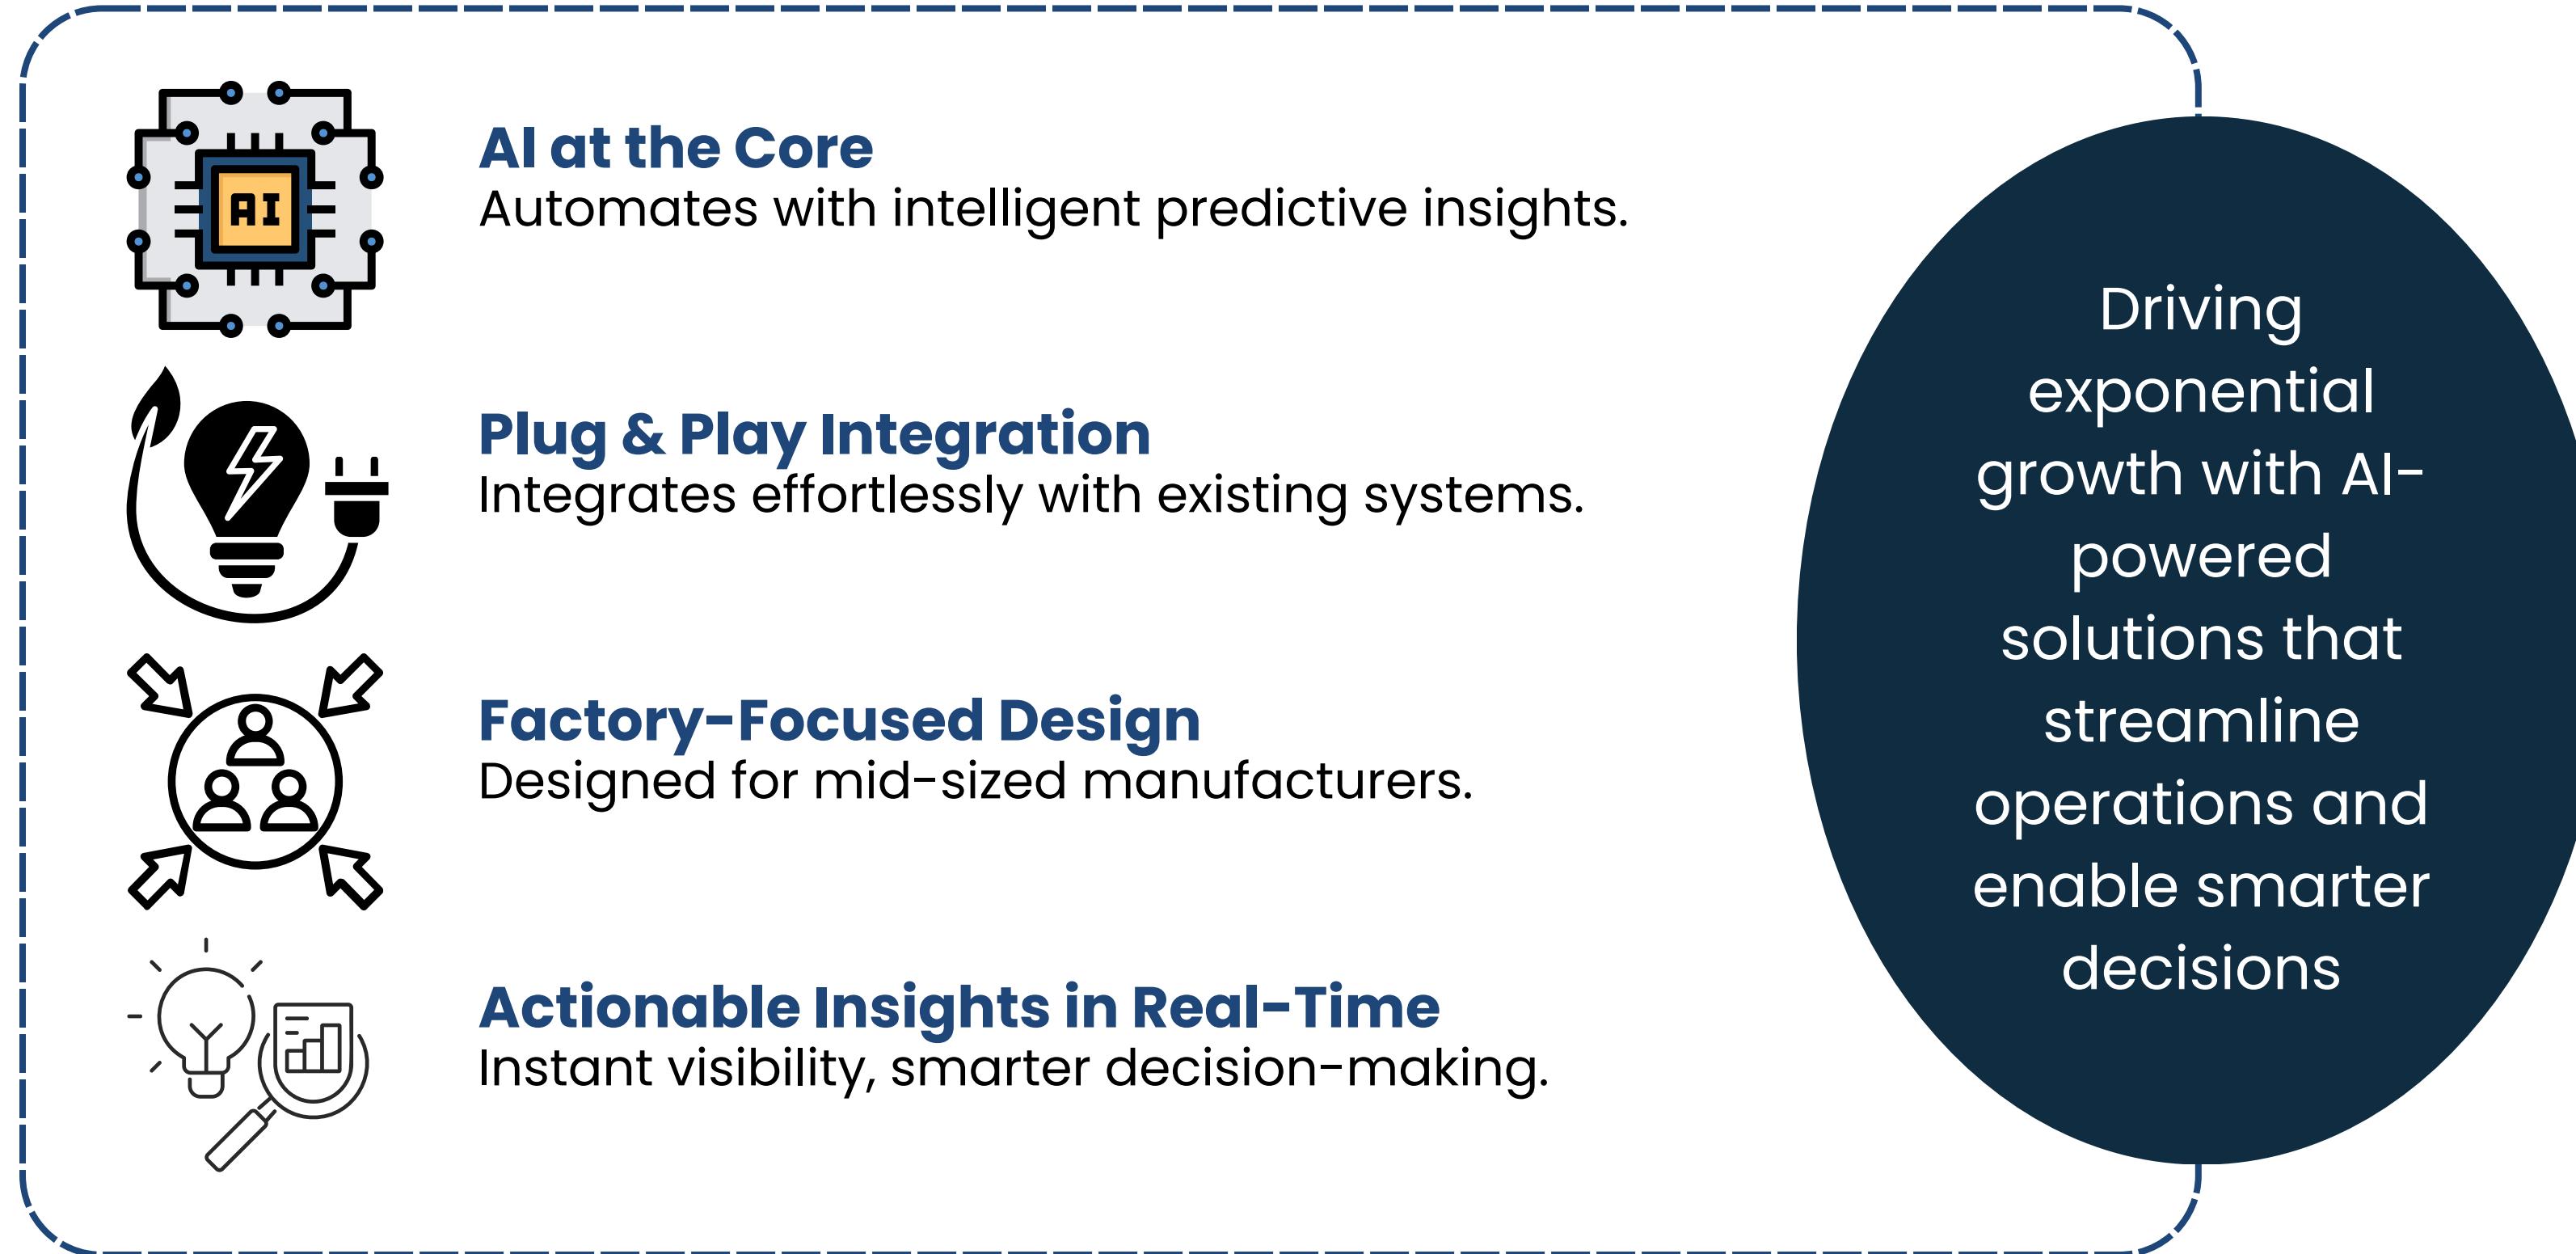

Real-Time Dashboards

Gives instant visibility into production, inventory, and supply chain health.

**Smart solutions that automate,
predict, and simplify
manufacturing like never before**

Unique Selling Propositions

Smart Solutions, Powerful Growth

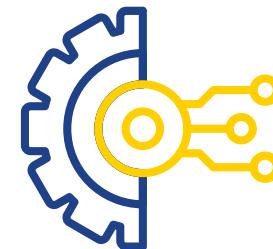

Our Target Market

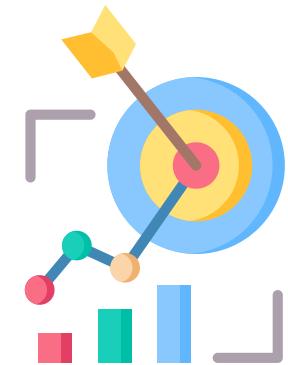

**Mid-Sized
Manufacturers**

**Supply Chain
Managers**

**Industries Seeking
Digital Transformation**

**Growth-Oriented
Businesses**

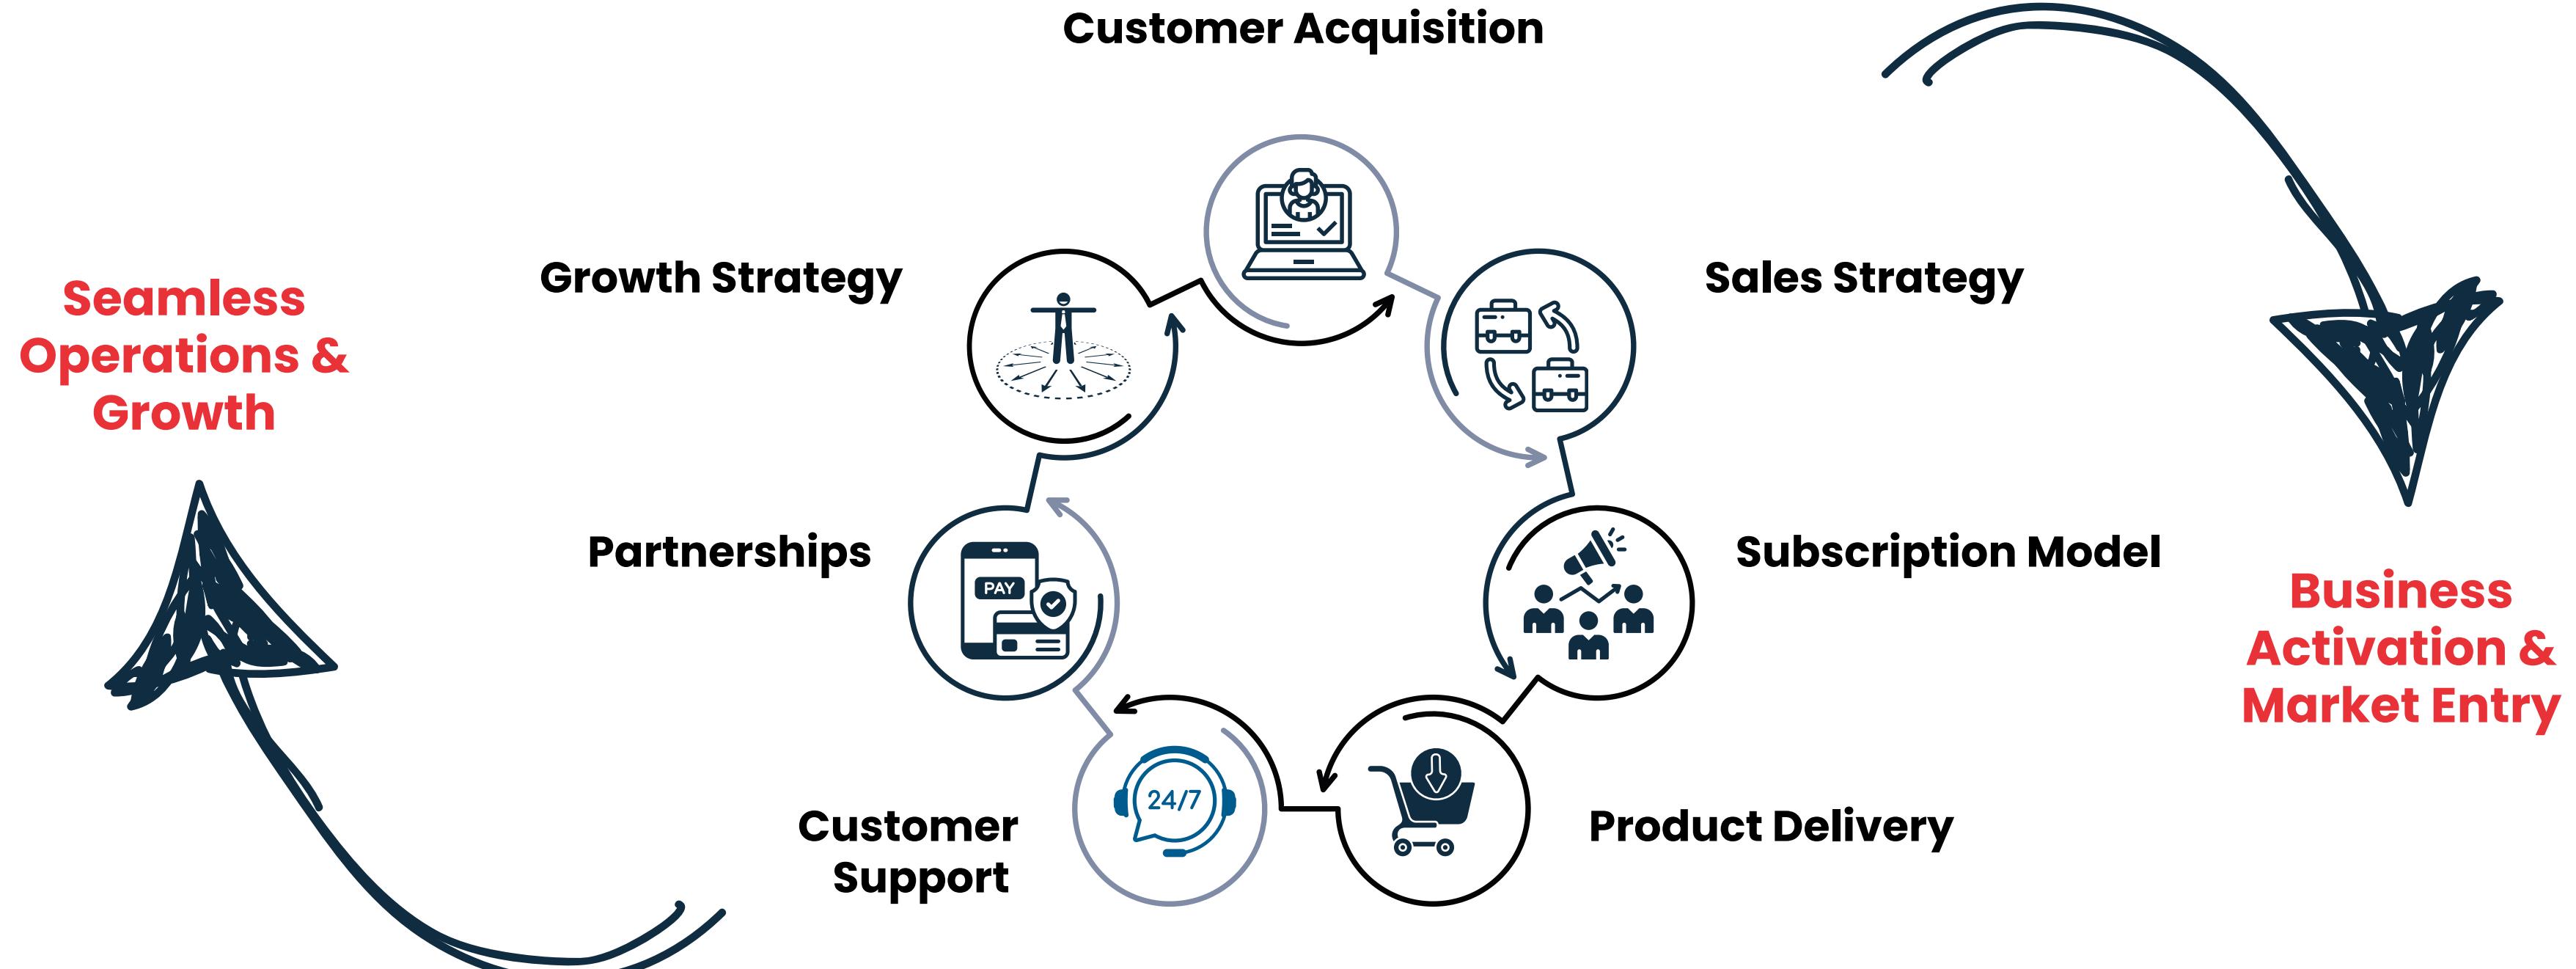

**Tech-Savvy
Adopters**

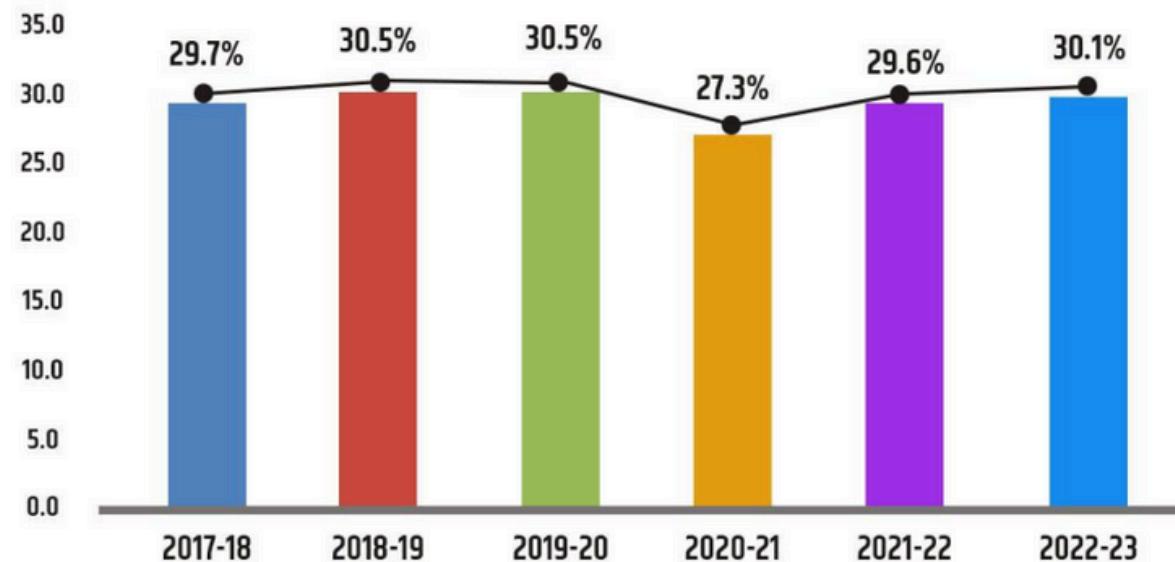

**Geographic
Focus**
